

CARE-GIVING FOR CHILDREN w/ADD/ADHD

Presented by:
Families for Kids

In coordination with Pierce College, Foster Parent Education

Workshop Objectives:

- ❖ Identify the common signs, symptoms, and characteristics of children and infants with ADHD/ADD and other related mental health issues (fetal alcohol syndrome, infants born with cocaine or other amphetamine addictions, etc.).
- ❖ Address current theories, treatment, and behavior management techniques for working with children with the above diagnosis
- ❖ Participants will learn how to access DSHS hotlines and other assistance in crisis and emergency situations.

This workshop was created by Wendy Warman. Wendy is a Licensed Independent Clinical Social Worker and Certified Child Mental Health Specialist. She has worked in the field of foster care/family preservation for over 27 years and is currently working in the adoption unit for Children's Administration, Region 3. In addition to training foster parents and staff, she is also a certified STARS trainer for the State-Wide Childcare training program and teaches many classes on child management and mental health issues concerning children.
